HOW TO GET ELECTRICITY AT YOUR PITCH

ARRIVAL

If you need electricity at the pitch you have booked, you must use a consumption card. If you do not have a consumption card, it can be obtained from the machine in the service building. Follow the instructions on the screen.

Once you have acquired a consumption card, you must find the electricity meter (for purchasing electricity) that belongs to the pitch you have booked and do the following:

1. Insert your consumption card in the electricity meter.
2. Press the button next to your pitch number (e.g. button no. 6 for pitch number 21)
3. Press the button again to buy 3 KW.
4. Press again to buy another 3 KW. (You have now purchased 6 KW)

DEPARTURE

If you haven't used all the electricity that you have purchased, you can return the excess amount to the consumption card and get the amount refunded by doing the following:

Insert the consumption card in the electricity meter and press button nr. 2 or follow the instructions on the display. Your remaining amount has now been returned to the consumption card and the amount can be refunded via the machine in the service building or in our reception during opening hours.
